

TV Android Board

USB	IR & Keys	UART	Communication
-----	-----------	------	---------------

USB	SD Card	Full HD	Ethernet	Upgrade Key	Power
-----	---------	---------	----------	-------------	-------

Features

OS	Android 4.2.2
OSD	Multi - Languages
External Storage	USB Drive Storage, SD Card (FAT, FAT32, NTFS)

Hardware Platform

CPU	Dual Core ARM CORTEX-A9 (40nm CMOS) 7500 MIPS
Main Frequency	1.5 Hz
Nand Flash	Internal 4GB
SDRAM	1GB DDR3

Terminal

Full HD	V1.4, 720P/1080P
USB	V2.0 Default 2 posrts
SD Card	1 Slot

Interaction

IR	NEC protocol default
Mouse	USB Interface
Keyboard	USB Interface
USB Camera	USB Interface
DLNA	Support

USB Multimedia Playback Format

Video Decoding	Multiple Stream Audio Decoding	Subtitle	Image
H.264 HP/MP/BP L4.1	PCM	SMI	JPG / JPEG
Xvid	HD MA	ASS / SSA	BMP
VC-1 SP/MP/AP L3	AAC	SRT	GIF
MPEG 1/2/4	WMA	SUB	PNG
RMVB 8/9	MP3, MPEG Audio	SUB and IDX	--
H.263	--	--	--
M-JPEG	Vorbis	--	--
--	Real Audio	--	--

Applications

Enjoy online Live TV and VOD easily	
Enjoy local media through USB or micro SD card, even HDD	
Application like Youtube/Facebook/Skype/Netflix	
Applications for contents and services from customized servers	
Applications (diverse like games) from Play Store or other Android markets	
Quick accesses to website by powerful browser	
Online Video	Browse all video websites included Netflix, Hulu, Filxster, youtube and etc.
Play Store	Apps download from Google Play Store, Amazon Appstore and etc.
Chat	Support Skype, Facebook, Twitter, WeChat, QQ and etc.

Connection

WiFi	IEEE 802.11 b/g/n
Ethernet	10Mbps, 100Mbps Base - T

Electrical Characteristics

Power Supply	12V (ext. adapter)
Symbol	12V
Voltage Range	12±0.6V
Max Current	1200mA
Ripple Voltage @25°C	120mVP-P
